### **Summary**

8. On June 21, 2021, at approximately 5:41 am, Windsor Police Officers were dispatched to the 1600 block of Westcott Road in the City of Windsor for a “break and enter that just occurred.” The caller observed a male (the Affected Person) trying to break into a house which caused one of the neighbours to take chase of the Affected Person.
9. While on route to the scene, officers learned that the Affected Person was trying to assault the caller’s friend. Descriptors of the Affected Person were provided in detail.
10. Subject Official #1 located the Affected Person who was bleeding from his nose with visible dried blood on his face and clothing. Subject Official #1 advised him he was under arrest. The Affected Person looked at Subject Official #1 and laughed stating, “Sure, fuck off” and proceeded to walk westbound. Subject Official #1 believed the Affected Person was under the influence of alcohol or drugs due to his unnatural and unsteady gait.
11. Subject Official #2 had yet to arrive and the Affected Person was now walking toward Subject Official #1 who was in his marked WPS cruiser. Subject Official #1 exited his vehicle, announcing once again to the Affected Person that he was under arrest for attempt break and enter.
12. Subject Official #1 took physical control of the Affected Person’s left forearm and attempted to direct him over to a grassy area. The Affected Person had a brown belt wrapped around his right fist and wrist area. The Affected Person proceeded to pull away, therefore, Subject Official #1 used pressure to direct him on to his

stomach. After a brief struggle and with the assistance of Subject Official #2 who had now arrived on scene, handcuffs were secured on the Affected Person.

13. The Affected Person was provided his constitutional rights and refused to identify himself. During that time, the Affected Person indicated he felt pain in his right wrist. Officers noted minor swelling to the top of his left hand but not the right hand.

14. Due to the cut on his nose and the complaint of a sore wrist, Subject Official #1 requested Emergency Medical Services (EMS) attend.

15. While waiting for EMS, a witness provided information about the prior incident involving the Affected Person. Officers learned that the Affected Person was seen inside a neighbour's vehicle. The Affected Person then left and attempted to break into a house. Two witnesses pursued the Affected Person on foot. Once they caught up to him, the Affected Person charged at him stating, "I am going to kill you (or) hurt you!" The Affected person attempted to choke the witness, however he defended himself by punching the Affected Person in the face.

16. Officers formed reasonable grounds to charge the Affected Person with utter threats and assault. The identity of the Affected Person was confirmed.

17. After waiting for approximately two (2) hours for EMS, the Affected Person agreed to be transported to Windsor Police Headquarters, Detention Unit to await EMS.

18. EMS attended the WPS Detention Unit and transported the Affected Person to Windsor Regional Hospital – Ouellette Campus where it was learned that the

Affected Person suffered a hairline fracture to his right wrist.

19. Due to the injuries sustained by the Affected Person, the Windsor Police Service, as required by section 16 of the Special Investigations Unit Act, 2019, contacted the Special Investigations Unit. Two (2) Windsor Police Officers were designated as Subject Officials along with two (2) Witness Officials.

20. On October 19, 2021, the Special Investigations Unit notified Chief Pamela Mizuno that pursuant to section 34 of O. Reg. 268/10 their investigation was complete and a report had been filed with the Attorney General. The Special Investigations Unit indicated that there were no grounds in the evidence to proceed with criminal charges against the Subject Officials.

## **Policy Review**

### **21. Special Investigations Unit**

- a. Windsor Police Service Directive #716-01 – Effective Date 2021-03-04

### **22. Rationale:**

- a. The Special Investigations Unit (SIU) is a civilian agency with a legislative mandate to ensure transparent oversight of law enforcement occurrences across Ontario. The legislative framework for the SIU is set out in the Special Investigations Unit Act, 2019. The SIU is independent of any police service and operates at arm's length from the Ministry of the Attorney General. The mandate of the SIU is to conduct investigations into circumstances that result in serious injury or death, the discharge of a

firearm at a person, or an allegation of a sexual assault, which were the result of actions of a police official and may have criminal implications.

- b. Section 31 of the Special Investigations Unit Act requires that members of the Windsor Police Service shall co-operate fully with members of the SIU. The Special Investigations Unit Act addresses the conduct and duties of police officers with respect to SIU investigations. The purpose of this Directive is to ensure clear direction for members of the Windsor Police Service in fulfilling their legislated duty with the SIU.
- c. Ontario Regulation 268/10 made under the Police Services Act states in section 32:
  - i. *The Chief of Police shall promptly cause an investigation to be conducted into any incident involving a police officer in the Chief's police force that becomes the subject of an investigation by the SIU director under section 15 of the Special Investigations Unit Act, 2019.O.Reg 603/20, s.1.*

### 23. Findings:

- a. The policy met Ministry guidelines at the time of the incident. All officers involved in this incident adhered to and were in full compliance with this directive.
- b. Directive #716-01 was found to be current and up to date at the time of this occurrence. There are no further recommendations.

## 24. In-Service Training

- a. Windsor Police Service Directive #330-01 – Effective Date: 2018-04-24

## 25. Rationale:

- a. The objective of the In Service Training directive is to develop and maintain the knowledge skills and abilities of the members of the Windsor Police Service. This will be achieved through a succession of training programs, consistent with provincial government established adequacy standards, or as designated by the Chief of Police. This directive addresses the responsibility of members for career development, skills development and learning.
- b. The purpose of this directive is to establish and clarify the responsibility of members to attend and participate in in-service training programs.

## 26. Findings:

- a. The policy meets Ministry guidelines and all officers involved adhered to and were in compliance with this directive.
- b. Directive #330-01 was found to be current and up to date at the time of this occurrence. There are no further recommendations.

## 27. Arrest

- a. Windsor Police Service Directive #730-01 – Effective Date: 2020-12-03

## 28. Rationale:

- a. The purpose of this Directive is to establish policy and procedures with respect to Arrest, which encompasses the legal, constitutional and case law requirements relating to arrest. This directive will outline that all arrests of persons shall be made in accordance with the provisions of the Criminal Code, Charter of Rights and Freedoms, Provincial Statutes and Common Law, and that the rights of all arrested persons under the Canadian Charter of Rights and Freedoms shall be protected.

29. Findings:

- a. The effective date of this directive was December 3, 2020. At the time of the incident, the directive was up to date.
- b. Directive #730-01 was found to be current and up to date at the time of this occurrence. There are no further recommendations.

30. Handcuffing, Restraints and Spit Hoods

- a. Windsor Police Service Directive #734-01 – Effective Date: 2015-12-15

31. Rationale:

- a. Handcuffs/Leg Restraints and Disposable Restraints are a temporary means of restraint used to control a person to prevent escape, prevent injury to the police or public including the person handcuffed and to prevent the possible destruction of evidence. The proper use of all restraints provides a positioning advantage for police officers/members in the event a person attacks, resists or attempts to escape.

- b. Due to the health risks associated with human saliva exposures, the need to protect officers is increasingly important. Therefore, the use of Spit Hoods is approved to provide protection against the transfer of saliva or blood from a prisoner in custody.

### 32. Findings:

- a. At the time of this incident the directive was up to date. Officers were in full compliance and adhered to the directive.
- b. Directive #734-01 review period had elapsed as of July 21, 2021. The directive is under review, therefore, there are no recommendations.

### 33. Use of Force

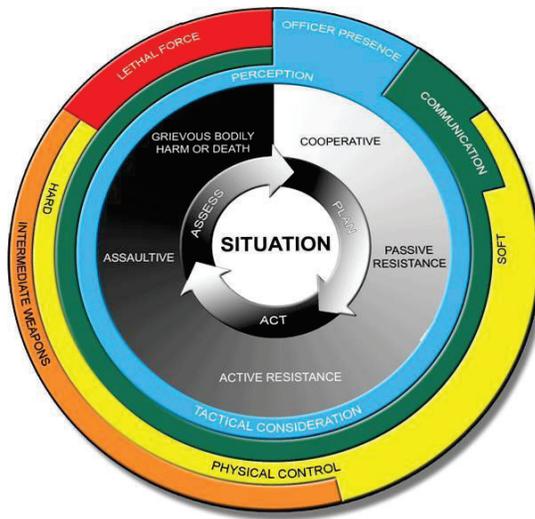

- a. Windsor Police Service Directive #711-00 – Effective Date: 2020-01-01

### 34. Rationale:

- a. The authority to use force on a person carries a great responsibility. It is incumbent on a Police Service to provide the proper tools, training and guidance to its Members to ensure that this responsibility is always paramount in the decision making process.
- b. It is important that the Service have access to information concerning the frequency and type of force used by police and the circumstances under which it occurs. This information is used to guide local training, refine policy and assist in the identification of provincial trends and training needs.

- c. The purpose of this Directive is to establish policy and procedures with respect to the reporting of use of force required by PSA O. Regulation 926. The other directives in the 711 series are specific to the various Use of Force tools.

### The Ontario Use of Force Model

### 35. Findings:

- a. The effective date of this directive was January 1, 2020. At the time of the incident, the directive was up to date. The review discovered that a Use of Force Report had not been completed. The Affected Person in the SIU investigation required medical attention at the conclusion of his arrest. As per Directive 711-01 Use of Force, a Use of Force Report submission is required. The Subject Officials were coached with respect to the policy and the Ministry requirements. A Use of Force Report was completed and submitted as per the Directive. No further action is required.

- b. Directive #711-00 was found to be current and up to date at the time of this occurrence. There are no further recommendations.

### 36. Supervisor Response

- a. Windsor Police Service Directive #863-01 – Effective Date: 2021-02-18

### 37. Rationale:

- a. Adequacy standards regulations require the establishment of processes and procedures on supervision that set out the circumstances where a supervisor must be notified of an event and where the supervisor must attend at or become involved in an event. These requirements are also imbedded in the event specific directives.

### 38. Findings:

- a. At the time of this incident this directive was up to date.
- b. Directive #863-01 was found to be current and up to date at the time of this occurrence. There are no further recommendations.

## **Services**

- 39. The PSB Investigator reviewed the services provided by the Windsor Police members who attended the incident. The review found no issues with the services that were provided by these members.

## Conduct

40. On June 21, 2021, Subject Official #1 and Subject Official #2 along with several other members of the Windsor Police Service were dispatched to a “break and enter that just occurred.”
41. Subject Official #1 located the Affected Person who was bleeding from his nose area with dried blood on his face and clothing. Subject Official #1 advised him he was under arrest. The Affected Person looked at Subject Official #1 and laughed, stating, “Sure, fuck off” and proceeded to walk westbound. Subject Official #1 believed the Affected Person was under the influence of alcohol or drugs.
42. Subject Official #2 had yet to arrive and the Affected Person was now walking toward Subject Official #1 who was in his marked WPS cruiser. Subject Official #1 exited the cruiser and again advised the Affected Person he was under arrest for attempt break and enter.
43. Subject Official #1 took physical control of the Affected Person’s left forearm and attempted to direct him over to a grassy area. The Affected Person had a brown belt wrapped around his right fist and wrist area and proceeded to pull away. Subject Official #1 used pressure to direct him on to his stomach. After a brief struggle and with the assistance of Subject Official #2 who had now arrived on scene, handcuffs were secured on the Affected Person.
44. After gaining control and effecting the arrest on the Affected Person, he was later diagnosed with a serious injury.
45. Reviewing evidence available from both the SIU investigation and a parallel investigation completed by Windsor Police Service, it is evident that there were reasonable grounds to arrest the Affected Person based on witness statements.

46. The SIU Director explained:

- a. "Pursuant to section 25(1) of the *Criminal Code*, police officers are immune from criminal liability for force used in the course of their duties provided such force was reasonably necessary in the execution of an act that they were authorized or required to do by law. In light of the information at Subject Official #1's disposal regarding the break and enter of Civilian Witness #1's truck, [SIU] is satisfied that there were lawful grounds to seek the Complainant's arrest."

47. Furthermore, SIU was satisfied with the force used by Subject Official #1 and #2 was legally justified.

48. Prior to his arrest, the Affected Person had broken into a vehicle and assaulted a civilian while fleeing the break and enter scene. Officers were aware of what had transpired.

49. SIU outlined that Subject Officials had provided the Affected Person plenty of opportunity to surrender, yet he chose to physically resist officers.

50. What transpired afterwards was described by SIU as follows:

- a. "Subject Official #1 was entitled to use force to the ground to quickly deter any prospect of continuing violence. Indeed, the Complainant continued to resist the officer's efforts on the ground, refusing to release his right arm to be handcuffed, but Subject Official #1's advantageous position allowed him to maintain control of the situation while waiting for assistance to arrive without having had to escalate his use of force."

51. SIU found no indication of excessive force brought on by Subject Official #2 either.

52. The SIU Director concluded there were no basis to proceed with criminal charges against either subject official. The Director was satisfied they acted lawfully throughout the incident.

### **Conclusion**

53. After reviewing the policies, procedures and services provided with respect to this review, no misconduct issues were noted with respect to the actions of Subject Official #1 or Subject Official #2, nor any other member of the Windsor Police Service on June 21, 2021. The Windsor Police Service cooperated fully and as required with the Special Investigations Unit.

54. The Special Investigations Unit concluded that there were no reasonable grounds to lay a criminal charge against the Subject Officials. This review as outlined concludes that there is no misconduct pursuant to the Police Services Act of Ontario. Accordingly, this file is closed.

## Crime Statistics November, 2021

In addition, the CCJS includes the number of offences reported by the Windsor Detachment of the Royal Canadian Mounted Police with the Windsor Police Service crime statistics. The CCJS data should be used for comparisons between policing jurisdictions as all data is compiled using the same reporting methodology

## Crime Statistics December, 2021

January 7, 2022  
Michael MENZEL  
Intelligence Analyst, WPS

\*Unless otherwise noted, all crime statistics in this report are compiled using the "all violations" methodology. These statistics should not be compared with those provided by the Canadian Centre for Justice Statistics (CCJS), a division of Statistics Canada. This published data measures only the most serious offence related to an incident. In addition, the CCJS includes the number of offences reported by the Windsor Detachment of the Royal Canadian Mounted Police with the Windsor Police Service crime statistics. The CCJS data should be used for comparisons between policing jurisdictions as all data is compiled using the same reporting methodology

The Ministry of the Solicitor General is pleased to announce a new Crisis Negotiator (CN) course offered by the Ontario Police College (OPC). This course was developed in partnership with subject matter experts (SME) from police services across the province and reflects current best practice in keeping with SME input and the CN training literature.

The CN course is directed at officers who are either members of a crisis negotiation team or deployed as members of emergency response units, which are also referred to as tactical and emergency response units.

The CN course offers instructional training in crisis negotiation theory, concepts, and tactics. For example, psychology of conflict management, communication skill and techniques, de-escalation, and crisis management are covered in the course. Practical exercises and scenario-based training are foundational to the course, which provides opportunities to develop CN knowledge and skills and apply theory to practice.

A pilot delivery of the course will be offered in early 2022. Additional information regarding dates will be forthcoming from the OPC Registration Office to Training Bureaus.

This course supports the requirements of *Policing Standards Manual* guideline - Crisis Negotiation (ER-005). Additional information on the CN course can be found on the Ontario Police College Virtual Academy (OPCVA) via [opcva.ca](http://opcva.ca).

All inquiries about the program should be directed to OPC Instructor Rebecca Cansdale via e-mail at [Rebecca.Cansdale@ontario.ca](mailto:Rebecca.Cansdale@ontario.ca) or by phone at (519) 773-4474.

**Subject:** **Amendment to O. Reg. 108/11: Forms under the *Provincial Offences Act* (POA) to Introduce Temporary Inserts**

---

The Ministry of the Attorney General was recently informed that the print vendors contracted by municipal POA courts (“Municipal Partners”) are unable to complete the printing of the new Part I ticket book sets used in POA courts by the effective date of November 1, 2021.

[O. Reg. 108/11: Forms](#) was recently amended to authorize enforcement agencies to continue to use the old forms contained in ticket book sets after November 1, 2021, provided the newly regulated temporary inserts are served together with the current Part I offence notices and Part I summons. This temporary measure will expire on March 30, 2022 and may result in two different versions of the Part I ticket/summons in circulation. The amending regulation, [O. Reg. 731/21](#), can be viewed online.

The temporary new forms can be found on the [Ontario Court Forms website](#).

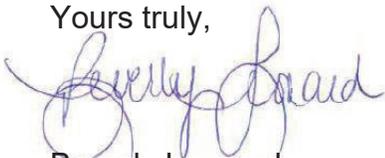

Municipal POA courts are responsible for printing these inserts and delivering them to their enforcement agencies.

.../2

Please note that early resolution court locations will be required to continue to print and issue the temporary insert (introduced on July 19, 2021) that advises defendants of remote proceeding information, in addition to these new forms.

If you have any questions please contact Wendy Chen, Manager of the Ministry's POA Unit, at [JUS.G.MAG.POASupport@ontario.ca](mailto:JUS.G.MAG.POASupport@ontario.ca) or (437) 244-8733.

<b>INDEX NO.:</b>	<b>21-0116</b>
<b>PRIORITY:</b>	<b>Normal</b>

The Ontario government, in consultation with the Chief Medical Officer of Health, is expanding eligibility for booster doses of the COVID-19 vaccine to address groups of high-risk individuals, effective **November 6, 2021**.

Based on the recommendation of the Chief Medical Officer of Health and in alignment with the National Advisory Committee on Immunization's recent recommendation, the province will begin offering booster doses of the COVID-19 vaccine to the following vulnerable populations if at least six months have passed since their last dose:

- Individuals aged 70 and over (born in 1951 or earlier);
- Health care workers and designated essential caregivers in congregate settings (including long-term care home and retirement home staff and designated caregivers);
- Individuals who received a complete series of a viral vector vaccine (two doses of the AstraZeneca vaccine or one dose of the Janssen vaccine); and,
- First Nation, Inuit and Métis adults and their non-Indigenous household members.

For clarity, health care workers eligible for booster doses include **police and special constables providing medical first response as part of their regular duties**. Booster doses are being offered to these groups based on evidence of gradual waning immunity six months after receiving their second dose and a higher risk of severe illness from COVID-19.

As of November 6, eligible individuals are able to book their booster dose appointment through the [COVID-19 vaccination portal](#) or by calling the Provincial Vaccine Contact Centre, directly through public health units that use their own booking systems, through Indigenous-led vaccination clinics, [select pharmacies](#), and primary care settings.

For further information, please see the November 3, 2021 News Release from the Ministry of Health at the following [link](#). In addition, the Ministry of Health's COVID-19 Vaccine Third Dose Recommendations can be accessed at the following [link](#).

I want to thank you and your members for their patience as this next phase in vaccine rollout evolves and as local public health units administer vaccinations to those eligible.

Sincerely,

I am writing to advise you of amendments to the following regulation under the Reopening Ontario (A Flexible Response to COVID-19) Act, 2020:

- **As of Tuesday, November 16th, 2020, at 12:01 a.m. O. Reg. 132/20 – Use of Force and Firearms in Policing Services has expired**

This order allowed chiefs of police to continue to authorize members to perform duties involving the use of force and to carry firearms provided they successfully completed prescribed training within 24 months of the authorization being made.

Despite delays in annual training as a result of the effects of the COVID-19 pandemic, police services have made significant progress towards bringing members into compliance with the prescribed training requirements. As a result, a further extension of the order was not sought.

The ministry recognizes and commends the efforts that enabled training activities to be sustained during this challenging period.

Thank you, once again, for your continued efforts to help keep our communities safe and healthy.

**MEMORANDUM TO:** Richard Stubbings, Assistant Deputy Minister

Policy Division, Ministry of the Attorney General

**SUBJECT:** Short form wordings for offences in the *Liquor Licence and Control Act, 2019* and its regulations in Regulation 950 under the *Provincial Offences Act*.

I am requesting your support in sharing this communication with the policing community regarding the establishment of new short form wordings for offences in the *Liquor Licence and Control Act, 2019* (LLCA) and its regulations in Regulation 950 under the *Provincial Offences Act* (POA).

Effective November 29, 2021, the LLCA and its regulations came into force, and the *Liquor Licence Act* (LLA) and its regulations are repealed. The LLCA was enacted in 2019 and modernizes the legal framework for alcohol which had not been comprehensively updated for over forty years. The new legal framework makes it easier for businesses and consumers to better understand the rules, reduces red tape, increases flexibility for businesses to reflect the changing landscape of beverage alcohol, and creates greater consistency across licence and permit types.

Due to the proclamation of the LLCA and its regulations, Schedules 61, 62, 63 and 63.1 in Regulation 950 under the POA have been revoked and replaced by three new schedules to reflect the repeal of the LLA and enactment of the LLCA. The short form wordings have been updated to reflect the structure and language of the new legal framework.

The Chief Justice of Ontario has approved a new set fine order for offences under the LLCA, which are consistent with the set fines established for equivalent offences under the LLA. The new short form wordings and set fines will replace the existing ones upon proclamation of the new legal framework on November 29, 2021. The amending

regulation which updates the short form wordings along with the approved set fines are enclosed.

For more information, or should you have any questions, please feel free to contact Mariela Orellana, Director, Agency and Tribunal Relations Branch at [Mariela.Orellana@ontario.ca](mailto:Mariela.Orellana@ontario.ca) or 647-680-5420.

**SUBJECT:** **Virtual Reality Mental Health Crisis Response Training  
(VR-MHCRT) Registration for Municipal and First Nation  
Police Services**

<b>DATE OF ISSUE:</b>	<b>December 7, 2021</b>
<b>CLASSIFICATION:</b>	<b>General Information</b>

<b>INDEX NO.:</b>	<b>21-0122</b>
<b>PRIORITY:</b>	<b>Normal</b>

The Ministry of the Solicitor General has partnered with Wilfrid Laurier University, Ryerson University, the University of Victoria, and a broad spectrum of subject matter experts to develop the *Virtual Reality Mental Health Crisis Response Training (VR-MHCRT)*. This is a scenario-based curriculum and evaluation framework that offers an evidence-based, standardized training protocol on de-escalation and mental health crisis response for police services across Ontario. The background and curriculum overview for MHCRT and VR-MHCRT is included as an attachment to this memo.

### **Police Service VR-MHCRT Registration**

Police services are encouraged to register to experience the VR-MHCRT at their home service. This will be done at no cost to participating services and includes the Virtual Reality (VR) educational technology and equipment to deliver the training. Registered police services will receive information on MHCRT, VR, and equipment delivery.

To register your police service, or for more information regarding VR-MHCRT, please contact [vr-mhcr@lumeto.com](mailto:vr-mhcr@lumeto.com) by December 17, 2021.

### **VR-MHCRT User Acceptance/Research Study**

The ministry will also be issuing a call for volunteers for the VR-MHCRT User Acceptance/Research Study. The objective of the study is to test the logistics and feasibility of running VR against that of live action circuit scenarios for mental health crisis simulation evaluation.

The study is tentatively scheduled for January 11-13, 2022 and February 8-11, 2022. Further information on this study and how to register will follow.

### **Background**

The MHCRT was designed to be used by police officers of varying levels of experience. The MHCRT was developed with the support and involvement of a broad range of organizations including mental health professionals and expert police panels.

The MHCRT will support both the ministry and individual police services in realizing recommendations from multiple seminal reports and inquests. This includes the recommendations on de-escalation and training techniques outlined in [\*A Matter of Life and Death \(2016\)\*](#) from the Ombudsman of Ontario.

The format of the live action MHCRT curriculum consists of in-person scenario-based training with supplementary online modules. In partnership with Wilfrid Laurier University and Ryerson University and with the support of Toronto-based technology provider Lumeto, the MHCRT program has been adapted for a VR format. VR is an immersive medium for scenario-based training that fosters scalability, cost-effectiveness, and consistency in simulating high fidelity, authentic crisis situations, allowing officers to practice decision-making, and implement communication and de-escalation strategies. The VR-MHCRT program will be available to all municipal and First Nations police services and can be used alongside existing training resources for mental health crisis responses and deployment of de-escalation strategies across diverse communities .

Thank you for your continued support on this important initiative.

Sincerely,

Richard Stubbings  
Assistant Deputy Minister

## Mental Health Crisis Response Training (MHCRT)

The *Mental Health Crisis Response Training* (MHCRT) curriculum includes instructional training manuals, online interactive content, problem-based learning scenarios, simulations, and the “De-escalating Persons in Crisis Competencies Tool” DePICT™, the first validated evaluation framework to assess officer competencies in de-escalation and mental health crisis response.

The objective of the made-in-Ontario MHCRT program is to develop officer skill sets in the areas of de-escalation and crisis response for community members living with mental illness or experiencing mental health crisis. It also demonstrates the ministry’s continued commitment to address recommendations on de-escalation from the Ontario Ombudsman and its responsiveness to the current issues.

This training has been developed with standardized, evidence-based, de-escalation content, and has several advantages, including:

- enhanced competencies training by further developing relational policing values (with particular attention to racialized communities), de-escalation communication and tactics and empathy towards people in mental health crisis;
- increased portability and scalability of the curriculum to address training a large and geographically dispersed group of police services;
- strong scientific validation in comparison to other de-escalation training content;
- scenarios designed with scaling difficulty; they can be adapted to be easier or harder depending on the skill of the officer and will be appropriate for police officers of all levels of experience; and
- the integration of anti-bias skills and concepts developed in partnership with Indigenous cultural safety experts, which will help address public concerns of bias and police use of force in mental health crisis situations.

The MHCRT curriculum was developed in collaboration with a broad spectrum of subject matter experts, including:

- Researchers from three (3) Canadian universities (Wilfrid Laurier University, Ryerson University, University of Victoria);
- Expert Technical Table members (OPP, Peel Regional Police, Durham Regional Police and Toronto Police Service);
- Use of Force Trainers Community of Practice;
- Police academies/colleges;
- Clinicians from two research hospitals (CAMH and Ontario Shores);
- Community advocacy associations;
- Ministry of Health/mental health stakeholders (e.g. Centre for Addictions and Mental Health, Addictions and Mental Health Ontario), including people with lived experience of mental illness;
- San’yas Anti-racism Indigenous Cultural Safety Education;
- Experts with Indigenous-specific knowledge concerning mental health and addictions to develop a culturally specific curriculum on effective and appropriate response to Indigenous persons in crisis, including two Indigenous cultural safety agencies;

- Anti-Racism Directorate; and
- Ministry of Indigenous Affairs.

### **Virtual Reality Mental Health Crisis Response Training (VR-MHCRT)**

The MHCRT integrates moment-to-moment feedback from subject matter experts with a range of specializations—from clinicians and people with lived experience to police trainers—that allow officers to safely rehearse best practices and modify approaches on their feet, in situ, as the scenario unfolds. The migration of MHCRT training into the VR MHCRT incorporates the following capabilities:

1. Trainee-responsiveness. Rather than offering users fixed branching scenarios consisting of multiple-choice options, the VR technology is adaptable and trainee-responsive. The level of complexity (e.g. environmental factors, presence of weapons, bystanders) can be dialed up or down depending on the trainee's level of experience (from recruits to senior officers).
2. Integrated and time-sensitive feedback. The VR MHCRT enables trainees to see and hear other police users in 3D space and receive moment-to-moment feedback from subject matter experts and training instructors.
3. Fully immersive environment. Unlike interactive 360-degree video the VR MHCRT offers a fully immersive VR environment and allows officers to exercise their judgement and practice their skills in de-escalating crisis situations. Training officers can change the environment settings in the VR MHCRT to accommodate various scenarios that reflect real life.
4. Dynamic interactivity. Officers can move around the virtual space, pick up objects, interact with others, and experience the dynamic fluidity of a scenario.
5. Multiple-user interaction and team-based decision-making. The ability to have multiple users in a scenario allows officers to practice resolving conflict situations with the back-up of additional unit members.
6. Body language and position tracking. The ability to track officer body position, gaze, distances, speed of movement to offer enhanced feedback.

**SUBJECT:** *Liquor Licence and Control Act, 2019 - Special  
Constable Appointments*

<b>PRIORITY:</b>	<b>Normal</b>

As you may be aware, effective November 29, 2021, the *Liquor Licence and Control Act, 2019* (LLCA) and its regulations came into force, and the *Liquor Licence Act* (LLA) and its regulations were repealed. The ministry is aware that many special constables were conferred police powers under the LLA, pursuant to section 53 of *Police Services Act*.

I am writing to you today to confirm that the ministry's position is that special constable appointments that grant the powers of a police officer under the LLA remain valid.

The ministry's position is that any special constable appointments that confer police powers under the LLA should be interpreted as conferring the equivalent powers under the corresponding provisions of the LLCA. Please see attached comparison chart for the corresponding provisions.

If the roles and/or responsibilities of a special constable have changed, or it is determined that a special constable should not be granted equivalent powers under the LLCA for any other reason, it is the responsibility of the police services board to request an amendment to their appointment. Requests for approval to appoint special constables or amend their appointments should continue to be submitted to Denise Lim, Appointments Officer at [Denise.Lim@ontario.ca](mailto:Denise.Lim@ontario.ca).

If you have any questions, please feel free to contact Jessica Mahon, Manager, Policing Standards Section, External Relations Branch, Public Safety Division at [Jessica.Mahon@ontario.ca](mailto:Jessica.Mahon@ontario.ca).

Thank you for your assistance in bringing this memorandum to the attention of the policing community.

I am writing to provide an update on the amendments made to O. Reg 364/20 (Rules for Areas at Step 3 and at the Roadmap Exit Step) under the *Reopening Ontario (A Flexible Response to COVID-19) Act, 2020* (ROA).

As you are aware, the Omicron variant has led to new challenges in Ontario's response to managing the COVID-19 pandemic. In consultation with the Chief Medical Officer of Health, the following amendments have been made to O. Reg. 364/20, which come into effect this weekend.

**Effective December 18, 2021, the regulation is amended to impose a 50 per cent capacity limit in the indoor areas of the following businesses or facilities, if the entire business or facility has a maximum occupant load of 1,000 or more people or a usual seating capacity of 1,000 or more people:**

- Meeting and event spaces (with limited exceptions);
- Facilities used for sports and recreational fitness activities, but only in respect of their indoor spectator areas (with limited exceptions);
- Concert venues, theatres and cinemas;
- Places where commercial film and television production takes place, where there is a studio audience;

- Museums, galleries, aquariums, zoos, science centres, landmarks, historic sites, botanical gardens and similar attractions;
- Casinos, bingo halls and other gaming establishments;
- Horse racing tracks, car racing tracks and other similar venues;
- Amusement parks and water parks; and
- Fairs, rural exhibitions, festivals, and similar events.

For further details, please see the amending regulation ([link](#)).

**Effective December 19, 2021, further amendments are made to O. Reg. 364/20 including:**

**50 per cent capacity limits in the following indoor settings:**

- Restaurants, bars and other food or drink establishments and strip clubs;
- Personal care services;
- Indoor spaces where personal physical fitness trainers provide their services;
- Retailers (including grocery stores and pharmacies);
- Shopping malls;
- All indoor areas of facilities used for sports and recreational fitness activities (e.g. gyms);
- Indoor recreational amenities;
- Indoor clubhouses at outdoor recreational amenities;
- Studio audience areas where commercial television and film productions take place;
- Tour and guide services and boat tours;
- Photography studios and services;
- Marinas, boating clubs and other organizations that maintain docking facilities for members or patrons;
- Strip clubs; and
- Rented meeting and event spaces.

**Additional protective measures are also being applied effective December 19, 2021:**

- The number of patrons permitted to sit at a table will be limited to 10 people (with limited exceptions) and patrons will be required to remain seated in restaurants, bars, other food or drink establishments, meeting and event spaces and strip clubs.
- Bars, restaurants, other food and drink establishments, meeting and event spaces and strip clubs will be required to close by 11 p.m. Take out and delivery will be permitted beyond 11 p.m.
- Food or drink establishments including nightclubs, restoclubs and other similar establishments that have indoor dance facilities can only open solely as food and drink establishments without dancing, with exceptions for establishments with

outdoor dance facilities if certain requirements are met. Patrons are not permitted to dance or sing indoors, including by doing karaoke.

- Food and/or drink services will be prohibited at indoor areas of sport and recreational fitness facilities (unless they are operating as food and drink establishments in accordance with all applicable requirements); concert venues, theatres and cinemas; casinos, bingo halls and other gaming establishments; and horse racing tracks, car racing tracks and other similar venues.
- Persons responsible for businesses or places must ensure alcohol is only sold at the business or place between 9 a.m. and 10 p.m. and consumed in the business or place between 9 a.m. and 11 p.m., except in airports.

**In addition to the above, please note that:**

- Capacity limits do not apply with respect to an area of the business or facility that is being used for a wedding, a funeral or a religious service, rite or ceremony.
- If the business or facility is already subject to a more restrictive capacity limit under O. Reg. 364/20, the more restrictive limit applies.
- Unless otherwise provided, capacity limits apply to the whole business or facility and not individual rooms or areas within the business or facility.
- Signs stating maximum capacity must be posted in a conspicuous location.

In addition, effective December 19, 2021, **the province is also reducing social gathering limits from 25 people to 10 people indoors, and outdoor gatherings are being reduced from 100 people to 25.** Social gatherings associated with weddings, funerals and religious services, rites or ceremonies, such as a wedding reception, are subject to these limits.

For further details, please see attached O. Reg. 865/21.

Local compliance campaigns to support businesses and organizations will continue to be led by multi-ministry teams of provincial offences officers and occupational health and safety inspectors in partnership with local by-law enforcement personnel and public health officials, and with the support of local police services if and where necessary.

The ministry continues to work with enforcement ministries and municipalities to collaborate and information share, including through a dedicated email resource at [EssentialWorkplacesSupport.SolGen@ontario.ca](mailto:EssentialWorkplacesSupport.SolGen@ontario.ca). We will also continue to analyze the enforcement data your police service provides us to help inform data-driven decision-making as the province advances through its *Roadmap to Reopen Exit Plan*.

For further information regarding the province's Roadmap to Reopen Exit Plan and the full list of orders in effect under the ROA, please visit [Ontario's Emergency Information](#) website.

In closing, I want to take this opportunity to thank you once again for your ongoing dedication and cooperative efforts to help keep our communities safe and healthy.

Sincerely,

I am writing today with staffing updates regarding the Inspectorate of Policing that will become effective on January 1, 2022.

Inspector General Devon Clunis will be retiring to focus on his health and family.

Devon joined the Ministry of the Solicitor General in October 2020 and set the foundation of the Inspectorate and with his leadership team, established the operations of the Inspectorate.

With Devon's retirement, we are pleased to announce that Deputy Inspector General Ken Weatherill will assume the role of interim Inspector General.

Prior to joining the Inspectorate, Ken served as Deputy Police Chief for both the Hamilton and Barrie Police Services and brings over 35 years of policing experience. He was appointed as the Deputy Inspector General and led the Inspections, Investigation, Audit and Compliance Management Branch since the Inspectorate's inception in 2020.

He is a leader who has built a high performing and inclusive team and led the development of the framework to support the inspection, investigation, and liaison functions of the Inspectorate.

I would like to thank Devon for his leadership and his passion and commitment to his work.

Sincerely,

<b>PRIORITY:</b>	<b>Urgent</b>

I am writing to advise all police services that the Ontario Police College (OPC) will be delaying the Basic Constable Training (BCT) program scheduled to commence on January 12, 2022.

Given the current modelling projected by the Chief Medical Officer of Health (CMOH) and the highly transmissible nature of the Omicron variant, the ministry will be delaying the start of the January BCT intake to February 7, 2022. Additionally, the BCT intake will be delivered in a modified format comprised of Part A and Part B:

- Part A – Online synchronous delivery of academic sessions from February 7 – March 4, 2022; and
- Part B – In-person practical skills training from March 9 – May 6, 2022.

Additional information regarding the format of the BCT intake, mitigation strategy and next steps will be forthcoming from OPC to the training bureaus.

Should you have questions related to the delay in the BCT program, please contact Chief Instructor Amanda Martikainen via e-mail at [Amanda.Martikainen@ontario.ca](mailto:Amanda.Martikainen@ontario.ca). Should you have questions related to registration for the BCT program, please contact the OPC Registration Office via e-mail at [OPC.Registrar@ontario.ca](mailto:OPC.Registrar@ontario.ca).

Updated Isolation Guidance

In response to the rapidly spreading and highly transmissible Omicron variant, the Ontario government, in consultation with the Chief Medical Officer of Health, updated its COVID-19 testing and isolation guidelines. This new guidance can be found [here](#).

A key change to highlight is based on the latest scientific evidence, individuals with COVID-19 should isolate for five days if they are fully vaccinated or under the age of 12, and if their symptoms are improving for at least 24 hours.

Police services board and chiefs of police should review this guidance to consider how it applies to your workforce strategies.

In addition, the Ministry of Health is expected to issue guidance on testing which will consider sector prioritizations.

Thank you for your continued support and dedication to keeping our communities safe.

Sincerely,

COVID-19, particularly the Omicron variant, continues to impact available staffing levels across multiple sectors, including the first responder community. To assist police services boards and chiefs of police in managing their available workforce to provide frontline critical services, Dr. Kieran Moore, the Chief Medical Officer of Health, has issued guidance on work self-isolation that is applicable to the policing sector.

For further information, I encourage police services boards and chiefs of police to review the attached memo from Dr. Moore to determine how it may support your own workplace staffing strategies.

In addition, the Ministry of Health is expected to issue guidance on testing in the coming days, which will consider sector prioritizations.

Sincerely,

Richard Stubbings

**RE: Work self-isolation**

---

As the highly- transmissible Omicron variant is the dominant strain of COVID-19 in Ontario, we are anticipating a continued rapid increase in cases that will have impacts for staffing levels in all sectors, and particularly for sectors where work from home is not possible. We are anticipating that in the coming days and weeks we may see absenteeism due to symptomatic illness as high as 20-30%.

Our case and contact management strategy will continue to evolve in the coming days and weeks, with a focus on symptomatic individuals staying at home while they have symptoms, as well as self-isolation for household members of someone who is sick or tests positive and for close contacts in high-risk settings such as acute care, long-term care, and other congregate living settings.

Due to both quarantine and isolation measures, we know that some sectors will experience critical staffing shortages, with risks of significant impacts on care or safety. In these circumstances, there may be a need to bring in individuals who have been told to self-isolate due to their exposure to someone who is symptomatic or has tested positive. This should be managed under 'work self-isolation' with risk mitigation measures.

**Work self-isolation may be considered if the close contact is:**

- Asymptomatic; AND
- Fully vaccinated; AND
- Actively screened ahead of each scheduled shift; AND
- Continuously tests negative on required testing.

Testing requirements include initial and repeat PCR/rapid molecular testing on day 7, and daily rapid antigen testing (RAT) for the period the individual is in work self-isolation (i.e., up to 10 days from last exposure to a case).

We recommend bringing in as few workers on work self-isolation as are required to maintain business continuity. Where possible, only initiate work self-isolation after an initial negative PCR/rapid molecular testing is available, and at least 5 days after their last exposure to the case.

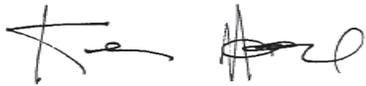

Where PCR/rapid molecular or RAT testing is not available to support work self-isolation testing requirements, organizations with critical staffing shortages that are challenged with respect to

patient/resident safety or critical infrastructure should consult with their local public health unit on risk reduction measures and the appropriateness of work self-isolation.

Staff who are cases (i.e. have tested positive) should not be considered for work self-isolation. Any critical situations where this is being considered must be discussed with the public health unit.

Thank you for your understanding in these challenging times and your flexibility in updating your workplace health and safety guidance.

Yours truly,
