Councillor Bortolin: When it comes to referrals to location has there been any changes to services offered through the crisis centre?

A/ Deputy Crowley: they have been receiving more referrals in April.

Councillor Bortolin: has the increase been due to the ease for referral due to the MCRRT agreement

A/ Deputy Crowley: Yes.

A/ Chief Bellaire: Having that ability to make that referral through this partnership does provide more people with services in the community. General trend upwards since MCRRT was implemented over the past year.

Councillor Bortolin: The statistics we have are pretty basic are we going to use the statistics and data and share them back and forth in the community?

A/ Chief Bellaire: These statistics are only the referrals. The numbers do not necessarily show what services they have been provided. What we hope to see is an increase in general services as a result of the referral but it is obviously challenging to extract medical information.

Denise Ghanam: We did look at other Board policies in drafting all of our policies. We were comfortable in how we drafted this policy and did not make drastic changes to the previous version

Councillor Bortolin: in regards to the Human Resources policies – in particular section 6 did this directive on performance reviews have any changes compared to previous versions?

Sarah Sabihuddin: We undertook a holistic review so there really wasn't any previous versions that we could have used to compare as large portions of these are new. There was mention of performance review in our Board by-law; however, this directive more clearly outlines the processes related to performance review.

Councillor Bortolin: in regards to the Administrative Policies – when it comes to the reporting. Does this now bring us into compliance? 5.1 & 5.2. Did we not have this policy previously?

Sarah Sabihuddin: Yes.

Councillor Bortolin: Could we have forgone this policy?

Sarah Sabihuddin: When we looked at all of our policies we decided to put them into these 3 overarching categories (soon to be 4 with Legal expected to come in July) that way when we had additional directives that may be needed can be added to the individual packages.

Denise Ghanam: During the process we tried to keep the role of the Board in terms of Governance at the forefront and where needed we can add extra specifics to the Directives. Thanks the Administrative Director for her leadership in developing these policies and for providing guidance throughout the process.

Moved by Denise Ghanam, seconded Vice Chair, Mayor DiCarlo. CARRIED

**SECTION 32 REVIEW: SIU 21-OVI-194**

<b>AFFECTED PERSON:</b>	<b>Injured Person</b>
<b>INCIDENT DATE:</b>	<b>June 24, 2021</b>
<b>INVESTIGATED BY:</b>	<b>Sergeant Leah McFadden</b>
<b>WPS PSB NUMBER:</b>	<b>SI2021-007</b>

## **Executive Summary**

1. This review is pursuant to section 32 of Ontario Regulation 268/10 of the Police Services Act. It will review the applicable policies of the Windsor Police Service (WPS), the services provided and the conduct of its members.

## **Background**

2. On June 24, 2021, at approximately 6:34 pm, the WPS notified the Ontario Special Investigations Unit (SIU) of injuries to the Affected Person as he sustained serious injuries in a motorcycle crash moments after a WPS officer had attempted to stop him (WPS case #21-56485). The notification to the SIU is a legislated requirement in circumstances where a civilian sustains serious injuries that are a result of an interaction with a police officer.
3. It was determined that the facts in issue regarding the events with respect to the injuries to the Affected Person met the threshold as laid out in the Special Investigations Unit Act. The information provided to the SIU caused them to invoke their mandate and commence an investigation into the actions of the designated WPS officer in accordance with section 15 of the Special Investigations Unit Act, Services Act, 2019.
4. Section 32 of Ontario Regulation 268/10 made under the Police Services Act requires the Chief of Police to commence an investigation forthwith into any incidents in which the SIU invokes its mandate. Assigned to this investigation was Sergeant Leah McFadden of the Windsor Police Service Professional Standards and Risk Management Unit. This report is based on a factual review of the events, the actions of the involved officers and a review of applicable Windsor Police Service policies.

## **Methodology**

5. The scope of this Section 32 review has identified a number of Windsor Police Service Directives and Policies. The purpose of this review is to ensure compliance with the Police Services Act of Ontario and regulations including the Ontario Policing Standards and overall policing best practices.

## **Scope of Review**

6. This review pursuant to section 32 of Ontario Regulation 268/10 made under the Police Services Act will review the applicable policies of the Service, the services provided and the conduct of its members.

### **Summary**

8. On June 24, 2021, at approximately 8:24 pm, the Subject Official was operating an unmarked WPS Traffic Unit vehicle. He was travelling east on EC Row Expressway approaching Central Ave when he observed a white Suzuki motorcycle travelling in front of him. The rear licence plate on the motorcycle was improperly mounted, which made it difficult for the Subject Official to decipher the characters on the licence plate. Subsequently, the Subject Official followed the motorcycle to initiate a vehicle stop.
9. The motorcycle exited Central Ave. and proceeded north on Central Ave. from EC Row Expressway. The Subject Official was stopped by the red light for northbound traffic onto Central Ave. however, he maintained sight of the motorcycle. The Subject Official activated his lights and sirens then proceeded through the red light onto Central Ave. At this point, the motorcycle had just crested the overpass on Central Ave. and would not have been able to see the Subject Official's emergency lights. As such, the Subject Official deactivated the emergency equipment but continued to follow the motorcycle, which had turned right onto Plymouth Dr. then east on Grand Marais Rd. E. Due to traffic at this time, the Subject Official was unable to catch up to the motorcycle but maintained visual contact.

10. By maintaining visual contact with the motorcycle and anticipating his direction of travel, the Subject Official was able to get directly behind the motorcycle at Tecumseh Rd. E. at George Ave. As the motorcycle turned left onto Tourangeau Rd., the Subject Official activated the emergency lights of his WPS vehicle. The driver, later identified as the Affected Person, did not immediately stop but was accelerating normally. The Subject Official then activated the sirens of his WPS vehicle, at which time the Affected Person accelerated away, demonstrating he was aware of police presence and refusing to stop. To ensure public safety, the Subject Official disengaged and turned off all of the emergency equipment on the WPS vehicle.
11. The Affected Person continued to drive north on Tourangeau Rd. at a high rate of speed. Seconds later, the Subject Official observed a large plume of dust near the intersection of Tourangeau Rd. and Alice St. Upon approaching this intersection, the Subject Official advised dispatchers of the motorcycle collision while simultaneously observing the Affected Person run toward the houses on the west side of Tourangeau Rd. The Subject Official then observed the Affected Person walk west on Alice St., away from the accident scene.
12. At approximately 4:29 pm, the Subject Official was able to stop the Affected Person in front of 1702 George Ave. and place him under arrest for dangerous driving. The Affected Person was provided his Charter Rights and identified via an in-house WPS photo.
13. The Affected person had visibly significant road rash injuries on his buttocks and his hands were bloody. He also complained of a sore back. Due to the injuries sustained by the Affected Person in the motorcycle collision, and the fact that the Affected Person was now compliant, he was not handcuffed and Emergency Medical Services (EMS) was requested.

14. A CPIC check of the Affected Person revealed he was currently charged with five counts of operation while prohibited and bound by release conditions not to operate or have care and control of a motor vehicle. Further, he had two driving suspensions under the Highway Traffic Act (HTA) for failure to complete a remedial program and for unpaid fines.
15. While officers were in front of a residence on George Ave., a resident approached stating, "Um there's a bag of drugs here on my porch step and it's not mine!" Officers observed a bloodied bag of suspected cocaine and had reasonable grounds to believe the Affected Person attempted to discard the suspected cocaine.
16. At approximately 4:45 pm, the Affected Person was advised he was also being charged with possession for the purpose of trafficking, flight from police, breach recognizance and operation of a motor vehicle while disqualified.
17. A CPIC check of the VIN revealed the motorcycle was not registered to the Affected Person and the licence plate status was 'unattached,' meaning it wasn't registered to any vehicle. The Affected Person was later issued a summons for HTA offences related to the licence plate.
18. At approximately 5:01 pm, the Affected Person was transported to Windsor Regional Hospital – Ouellette Campus where it was learned that the Affected Person suffered a broken pelvis and broken toe.
19. At the time of the accident, the traffic was light, the roads were dry and it was overcast.
20. Due to the injuries sustained by the Affected Person, the Windsor Police Service, as required by section 16 of the Special Investigations Unit Act, 2019, contacted the Special Investigations Unit. The Windsor Police Officer was designated as a Subject Official along with two (2) Witness Officials.

21. On October 22, 2021, the Special Investigations Unit notified Chief Pamela Mizuno that pursuant to section 34 of O. Reg. 268/10 their investigation was complete and a report had been filed with the Attorney General. The Special Investigations Unit indicated that there were no grounds in the evidence to proceed with criminal charges against the Subject Official.

## **POLICY REVIEW**

### **Special Investigations Unit; WPS Directive #716-01, Effective 2021-03-04**

#### **22. Rationale:**

- a. The Special Investigations Unit (SIU) is a civilian agency with a legislative mandate to ensure transparent oversight of law enforcement occurrences across Ontario. The legislative framework for the SIU is set out in the Special Investigations Unit Act, 2019. The SIU is independent of any police service and operates at arm's length from the Ministry of the Attorney General. The mandate of the SIU is to conduct investigations into circumstances that result in serious injury or death, the discharge of a firearm at a person, or an allegation of a sexual assault, which were the result of actions of a police official and may have criminal implications.
  
- b. Section 31 of the Special Investigations Unit Act requires that members of the Windsor Police Service shall co-operate fully with members of the SIU. The Special Investigations Unit Act addresses the conduct and duties of police officers with respect to SIU investigations. The purpose of this Directive is to ensure clear direction for members of the Windsor Police Service in fulfilling their legislated duty with the SIU.

c. Ontario Regulation 268/10 made under the Police Services Act states in section 32:

i. *The Chief of Police shall promptly cause an investigation to be conducted into any incident involving a police officer in the Chief's police force that becomes the subject of an investigation by the SIU director under section 15 of the Special Investigations Unit Act, 2019.O.Reg 603/20, s.1.*

### 23. Findings:

- a. The policy met Ministry guidelines at the time of the incident. All officers involved in this incident adhered to and were in full compliance with this directive.
- b. Directive #716-01 was found to be current and up to date at the time of this occurrence. There are no further recommendations.

### In-Service Training; WPS Directive #330-01, Effective 2018-04-24

### 24. Rationale:

- a. The objective of the In Service Training directive is to develop and maintain the knowledge skills and abilities of the members of the Windsor Police Service. This will be achieved through a succession of training programs, consistent with provincial government established adequacy standards, or as designated by the Chief of Police. This directive addresses the responsibility of members for career development, skills development and learning.

- b. The purpose of this directive is to establish and clarify the responsibility of members to attend and participate in in-service training programs.

25. Findings:

- a. The policy meets Ministry guidelines and all officers involved adhered to and were in compliance with this directive.
- b. Directive #330-01 was found to be current and up to date at the time of this occurrence. There are no further recommendations.

Arrest; Windsor Police Service Directive #730-01, Effective 2020-12-03

26. Rationale:

- a. The purpose of this Directive is to establish policy and procedures with respect to Arrest, which encompasses the legal, constitutional and case law requirements relating to arrest. This directive will outline that all arrests of persons shall be made in accordance with the provisions of the Criminal Code, Charter of Rights and Freedoms, Provincial Statutes and Common Law, and that the rights of all arrested persons under the Canadian Charter of Rights and Freedoms shall be protected.

27. Findings:

- a. At the time of this incident, Directive #730-01 was up to date. Officers were in full compliance and adhered to the directive. There are no further recommendations

Handcuffing, Restraints and Spit Hoods; WPS Directive #734-01, Effective 2015-12-15

28. Rationale:

- a. Handcuffs/Leg Restraints and Disposable Restraints are a temporary means of restraint used to control a person to prevent escape, prevent injury to the police or public including the person handcuffed and to prevent the possible destruction of evidence. The proper use of all restraints provides a positioning advantage for police officers/members in the event a person attacks, resists or attempts to escape.
- b. Due to the health risks associated with human saliva exposures, the need to protect officers is increasingly important. Therefore, the use of Spit Hoods is approved to provide protection against the transfer of saliva or blood from a prisoner in custody.

29. Findings:

- a. At the time of this incident, Directive #734-01 was up to date. Officers were in full compliance and adhered to the directive. There are no further recommendations.

Suspect Apprehension Pursuits; WPS Directive #717-01, Effective 2019-04-23

30. Rationale:

- a. The effective management of pursuits will reduce risk to both the public and officers and will ensure that the risks are appropriate to the benefits.

- b. The purpose of this Directive is to establish suspect apprehension pursuit procedures that are consistent with Ontario Regulation 266/10 made under the Police Services Act.

31. Findings:

- a. At the time of this incident the review period for this directive was due April 2020 and, therefore, had lapsed.
- b. The pursuit was reviewed by the Inspector of Patrol Support. As a result of the review, and pursuant to the Police Services Act, Section 76(1) a Chief's Complaint was initiated. The allegations against the officer include insubordination, in that he failed to follow the Suspect Apprehension Directive.
- c. As a result of the pursuit, the directive was reviewed and updates made on October 21, 2021, ensuring the directive remains current.
- d. The Officer's conduct is being investigated independent of this review, and the directive has been updated. Subsequently, there are no recommendations.

Supervisor Response; WPS Directive #863-01, Effective 2021-02-18

32. Rationale:

- a. Adequacy standards regulations require the establishment of processes and procedures on supervision that set out the circumstances where a supervisor must be notified of an event and where the supervisor must

Section 32 Review SIU 21-OVI-194

10

attend at, or become involved in, an event. These requirements are also imbedded in the event specific directives.

33. Findings:

- a. At the time of this incident, Directive #863-01 was up to date. Officers were in full compliance and adhered to the directive. There are no further recommendations.

Prisoners Admitted to Hospital; WPS Directive #732-02, Effective 2016-12-01

34. Rationale:

- a. Occasionally, persons suffer from injury or illness prior to, during, or after arrest and yet prior to arraignment or release from custody. The Windsor Police Service is under an obligation to ensure that the requirements of the Criminal Code are met with regards to the timely release or arraignment of prisoners.

35. Findings:

- a. Officers were in full compliance and adhered to the directive.
- b. Directive #732-02 was found to be current and up to date at the time of this occurrence.

## **Services**

36. The PSB Investigator reviewed the services provided by the Windsor Police members who attended the incident. The review found no issues with the services that were provided by these members.

## **Conduct**

37. On June 24, 2021, the Subject Officer was operating an unmarked WPS traffic unit vehicle and observed a motorcycle travelling on the EC Row Expressway with an ill-fitted licence plate. Subsequently, the Subject Officer attempted to conduct a vehicle stop.

38. The Subject Officer was required to follow the motorcycle for a distance until he was able to get into a position to activate his emergency vehicle equipment, which included lights and sirens, while travelling north on Tourangeau Rd., immediately north of Tecumseh Road East.

39. Upon the Subject Officer activating his emergency equipment, the motorcycle not only failed to stop, but it accelerated away from him. Subsequently, for the safety of the public and the driver of the motorcycle, the Subject Officer turned his emergency lights off.

40. Moments later, the motorcycle crashed, the driver fled on foot and was apprehended a block away from the accident scene. There the driver was arrested for numerous related provincial and criminal offences.

41. The Affected Person suffered serious injuries resulting from the motorcycle accident.

42. Reviewing evidence available from both the SIU investigation and a parallel investigation completed by the Windsor Police Service, it is evident that there were reasonable grounds to arrest the Affected Person based on officer and witness statements.

43. The SIU Director explained:

- a. "I am satisfied that the officer had lawful grounds to seek to stop the Complainant as the evidence indicates that the rear licence plate was improperly mounted on the vehicle, making it difficult to read."
- b. "The offence that arises for consideration is *dangerous driving causing bodily harm* contrary to section 320.13(2) of the *Criminal Code*. The offence is premised, in part, on conduct that amounts to a marked departure from the level of care that a reasonable person would have exercised in the circumstances. In the instant case, the issue is whether there was a want of care in the manner in which the SO (Subject Officer) engaged with the motorcycle that contributed to the collision and/or was sufficiently egregious as to attract criminal sanction. In my view, there was not."
- c. "I am also satisfied that in the brief time between the collision and the point at which the SO was right behind the Complainant, the officer comported himself with due care and regard for public safety, including the Complainant's safety."
- d. "As soon as the motorcycle took off on him after the officer activated his lights and siren, the SO, wisely, in my view, discontinued pursuit. Given the inherent vulnerability of motorcyclists, particularly at high speeds, it would

not have been worth the risk to continue the engagement any further. Thereafter, the SO continued north at reasonable speeds.”

44. The Subject Officer’s driving that preceded the final stages of his engagement with the Complainant was addressed. Specifically:

- a. “I am unable to reasonably conclude that the officer transgressed the limits of care prescribed by the criminal law. The officer did exceed the speed limit at points, traveling upwards of 100 km/h, for example, on Central Avenue. He did so in an unmarked police vehicle and without the use of his emergency lights and siren. Indeed, the officer’s driving was sufficiently disconcerting to another motorist that he called 911 to complain about what he had observed.”
- b. “That said, it should be noted that officers engaged in the execution of their duties are exempt from the speed limitations pursuant to section 128 of the *Highway Traffic Act*. While the section does not give officers free rein to speed as they wish without regard for public safety, the evidence falls short of establishing that the SO exceeded the remit of the provision, particularly as one would expect a degree of speed over the speed limit as the officer was attempting to catch up to the motorcycle.”
- c. “I am not satisfied on balance that the SO’s indiscretions, if they be such, were of a magnitude to attract criminal liability.”

45. The SIU Director concluded there were no basis to proceed with criminal charges against the Subject Official. The Director was satisfied he acted lawfully throughout the incident.

## **Conclusion**

46. After reviewing the policies, procedures and services provided with respect to this review, misconduct issues were identified with respect to the actions of the Subject Official, which were addressed by way of Chief's Complaint, pursuant to the Police Services Act, Section 76(1). The Windsor Police Service cooperated fully and as required with the Special Investigations Unit.
47. The Special Investigations Unit concluded that there were no reasonable grounds to lay a criminal charge against the Subject Official. This review as outlined concludes that there was misconduct pursuant to the Police Services Act of Ontario and is being addressed via a Chief's Complaint. Accordingly, this file is closed.

For the 2<sup>nd</sup> quarter of 2022, POP officers continued to monitor: Glengarry Housing complex, short stay Motels on Huron Church, Howard Avenue, Airport Road area and Erie Street parking lots. New areas of concern that POP officers were requested to monitor during the second quarter were Forest Glade Park, Bruce Park, Detroit riverfront front parking lots at night, 1100 block of Church St, and several big box stores due to the large amounts of shoplifting. # WPS – Youth Diversion; Q2 Report 2022

## Objective and Goal:

To review investigations involving young persons who have either been identified as a Subject, a Person of Interest, or an Offender to determine if reasonable grounds exist for a Criminal Charge, and if it is in the best interest of the Community and the youth offender to proceed by way of a **Youth Diversion** referral. This is also undertaken to identify factors that could be contributing to the youth offender not being identified as an appropriate candidate for the program.

The goals are to increase the number of referrals to the **Essex County Youth Diversion Program**, and increase awareness of the program, which in turn would benefit the youth, family and support a safer community.

## Highlights Q2:

- **April: 519 Connect - Episode 5** - Guest Speaker - Executive Director - Essex County Youth Diversion Joanna Conrad. The Podcast was broadcasted, using various social media platforms, to raise awareness of the program.
- **June:** Further discussions for **Pre Charge Diversion App** as part of the **2023-2026 Strategic Work Plan** of continuous improvement.
- Youth Offender referral workflow continues to be successfully monitored by the Patrol Support Unit Staff Sergeant.
- Youth Diversion Brochures updated with Quick Response (QR) code.
- **335** views of the Youth Diversion Video through **“WPS Cares”**

## New and Ongoing Challenges:

**Challenge** – There is inconsistency with the conclusion of occurrences when more than one youth offender is identified in the same case. For example, one of the youth offenders in the same case could be charged, while others are referred to Youth Diversion, or for example, three youth offenders in the same incident are referred, the conclusion would not reflect the outcome as it would only indicate one Conclusion Block option within the Records Management System.

**Solution** – Information Services is monitoring all youth involved incidents and tracking the respective statistics.

## Strategies Planned:

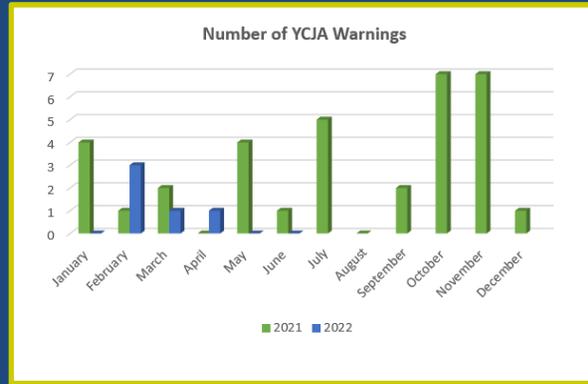

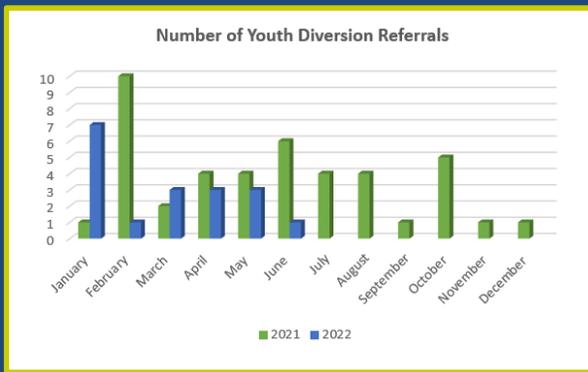

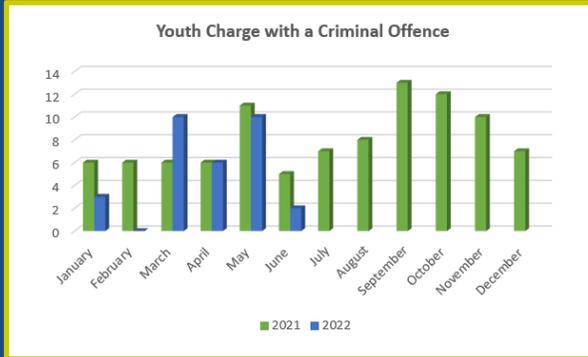

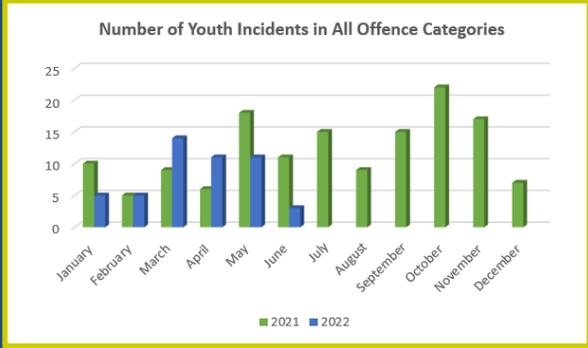

- **Recidivism:** To generate a notification when a previous youth offender graduate of Youth Diversion commits a criminal offence.
- Increase public awareness of the benefits of **Essex County Youth Diversion Program** by the increase of public community presentations.

**Statistics:** In 2021 there was a total of **144 incidents** involving youth, of that **95 youths** were charged criminally, **43 youths** were referred to the **Essex County Youth Diversion Program**, **34 youths** were given a YCJA Warning, and **14 youths** were under 12 years of age.

To date in 2022 there are a total of **49 incidents** involving youth, of that **31 youths** were charged criminally, **18 youths** were referred to the **Essex County Youth Diversion Program**. (**5 youths** were given an YCJA Warning and **3 youths** were under 12 years of age).

\*June stats are from June 1 to June 27, 2022.

FROM: Sarah Sabihuddin, Administrative Director  
RE: Annual Grant Agreements Execution Report

---

### **Recommendation(s):**

It is recommended that the WPS Board receive the attached report.

### **Background / Purpose:**

The Provincial and Federal Governments offer a variety of grant programs to support the delivery of policing services for community safety. The process to receive these grants involves an application and, if approved, an agreement with the Provincial or Federal Government. To ensure the Service is able to take advantage of these programs in a timely manner, the Board approved a policy on July 22, 2021 delegating signing authority for grant applications to the Chief of Police.

In addition, the policy authorizes the Board Chair to execute any agreements and ancillary documents needed to comply with the terms of the grant approvals.

The policy also requires that an annual report be submitted to the Board detailing the agreements executed. The attached chart fulfills this requirement.

Respectfully submitted,

**DATE:**      May 3, 2022

**SUBJECT:**      **New regulation under the *Highway Traffic Act* to allow for a  
Large Quadricycle pilot**

---

This memorandum is to advise the policing community of regulatory changes under the *Highway Traffic Act* (HTA).

Effective April 21, 2022, a new regulation, - [O. Reg. 411/22: PILOT PROJECT - LARGE QUADRICYCLES \(ontario.ca\)](#) establishes a ten-year pilot project to allow the use of large quadricycles on Ontario roads. Large quadricycles are large vehicles that are used to carry as many as 20 riders (19 passengers, one operator). They are primarily used to provide tours of landmarks, breweries, and wineries. There are two types of large quadricycles:

1. Large non-electric quadricycles that are propelled by the passengers pedaling. The operator steers the vehicle and controls the braking system, and
2. Large electric quadricycles that use power assistance up to 10km/h - both when passengers are pedaling and/or through the operator's control of a push pedal, similar to a car.

Electric-assisted large quadricycles, in addition to non-electric large quadricycles, will be permitted in any municipality across the province that chooses to pass a by-law to enable their use. The electric-assisted large quadricycles are considered motor vehicles and are being exempted from registration and insurance. Non-electric versions of these vehicles are currently permitted on Ontario's roads and have been in operation in a few municipalities. Please refer to *Appendix A* for a detailed list of operation and vehicle requirements under the pilot framework.

## Collisions/Contraventions:

Police must remit incident/collision and injury-related data to the Registrar within 10 days of a collision if the collision or accident involved a motor vehicle and resulted in personal injuries or damage to property above \$2000.00 or involved the door of a motor vehicle that came into contact with a cyclist, bicycle or a moving vehicle.

All persons riding on a large quadricycle are required to comply with the rules for wearing safety helmets that apply to persons riding on bicycles. This means cyclists under the age of 18 must wear an approved helmet (HTA s.104 (2.1)) and for children 16 and under, a parent or guardian must make sure they wear a helmet (HTA s.104 (2.2)).

Contraventions of the pilot may be enforced under HTA s. 228 (8), which sets out a fine amount on conviction of not less than \$250 and not more than \$2,500. All existing HTA rules of the road and penalties also apply to an electric-assisted large quadricycles as these vehicles are motor vehicles under the HTA. HTA rules of the road that apply to vehicles will also generally apply to non-electric large quadricycles. However, operators of both types of large quadricycles are required to comply with s. 33.

Please note that large quadricycles, despite carrying more than 10 passengers do not need to meet the requirements to stop at a railway crossing under s.174. Large quadricycles are also exempt from s. 132. In addition, the impaired driving prohibitions under the *Criminal Code (Canada)* apply to electric assist large quadricycles as these vehicles meet the definition of motor vehicle under the Criminal Code. Municipalities may also impose further restrictions if required via by-laws.

The pilot will operate for a ten-year period and the ministry will monitor data available from the pilot throughout its lifecycle to determine if any changes will need to be made. The ministry will also conduct a formal review at both the 5<sup>th</sup> and 10<sup>th</sup> year anniversary, so we encourage enforcement to provide any feedback to MTO ahead of these review times.

I would ask that you please bring this memorandum to the attention of your policing stakeholders. If there are any questions regarding these amendments, please do not hesitate to contact Sabina Filipescu at (647) 285-5087 or [Sabina.Filipescu@ontario.ca](mailto:Sabina.Filipescu@ontario.ca).

Thank you for your assistance in communicating this change.

Sincerely,

Parm Bhatthal

**RE:** **Amendments to *Highway Traffic Act* Regulation 612 (School Buses) and to *Provincial Offences Act* Regulation 950**

This memorandum serves to advise the policing community of updated lighting requirements for school buses that come into force in Ontario on July 1, 2022.

On May 12, 2021, the [Safer School Buses Act, 2021](#) received Royal Assent and amended the *Highway Traffic Act* to mandate all school buses manufactured on or after January 1, 2005, to operate an Eight Lamp Amber-Red Warning System in Ontario, effective July 1, 2022. The adoption of the Eight Lamp Amber-Red Warning System responds to longstanding safety priorities of Ontario's school bus industry, will improve road safety for student passengers and align Ontario with school bus lighting requirements followed by all other Canadian jurisdictions.

I am pleased to advise that amendments to Ontario Regulation 612 (School Buses) and Regulation 950 (Proceedings Commenced by Certificate of Offence) were approved by Legislation and Regulations Committee on March 29, 2022, to align with legislative amendments completed to the *Highway Traffic Act* and support this important safety initiative.

**As an outcome of amendments to Regulation 612, all school buses manufactured on or after January 1, 2005, must meet the following equipment standards as of July 1, 2022, in order to comply with legislative and regulatory requirements in Ontario:**

- Each bus is to be equipped with four (4) overhead amber signal lights and four (4) overhead red signal lights, and
- Each bus is to display revised signage to be placed on the rear of vehicles to read "do not pass when red lights flashing".

**School buses manufactured prior to January 1, 2005, will not be mandated to operate this system**, and will be permitted to operate until the end of their useful service life. Certain vehicles may be eligible to operate an eight lamp amber-red warning system, and will be permitted to do so at the option and discretion of operators provided they comply with the appropriate standards outlined by the Canadian Standards Association (and as described in regulation).

In addition to Regulation 612, amendments have been made under Regulation 950 of the *Provincial Offences Act*. The associated short-form wordings and set fines can be found [here](#).

It is acknowledged that school bus operators will need to complete retrofits on vehicles to operate equipment in compliance with requirements that come into force in July 1, 2022.

To support the successful implementation of these changes, the Ministry of Transportation **will implement an education and awareness period from July 1, 2022, to September 1, 2022 (without penalties)**.

During this time school bus operators are advised:

- That the education and awareness period will be a temporary measure to support school bus operators
- To arrange and prepare to comply with legislative and regulatory in as timely a manner as possible
- That equipment may continue to operate during the education and awareness period if it does not have an eight lamp amber-red warning system, and
- Records of improper lamp colour defects should be maintained as part of daily inspection activities for tracking purposes, however enforcement officials will not issue penalties during the education and awareness period.

Overall, the forthcoming implementation of these changes is expected to have minimal impact to police officers and other law enforcement.

Please bring this memorandum to the attention of the appropriate members of your service to assist us in communicating this change.

Thank you in advance for your support and should you or your staff have any further questions, please contact Andrew Chase, Manager, Carrier Program Development Office at [Andrew.Chase@ontario.ca](mailto:Andrew.Chase@ontario.ca).

Sincerely,

Parm Bhatthal

I would like to take an opportunity to acknowledge the collective efforts of our enforcement partners, who have worked relentlessly to serve and protect Ontarians over the course of the COVID-19 pandemic.

Further to All Chiefs Memorandum 20-0031, 20-0047, 21-0005 and 22-0032, I am writing to advise that effective immediately, the Ministry of the Solicitor General (ministry) has discontinued the COVID-19 Enforcement Support Line. In addition, the ministry will also be winding down province-wide reporting on enforcement of the *Emergency Management and Civil Protection Act* (EMCPA) and the *Reopening Ontario (A Flexible Response to COVID-19) Act, 2020* (ROA), in response to COVID-19.

The Ontario government, in consultation with the Chief Medical Officer of Health, has been cautiously and gradually easing public health and workplace safety measures. However, masking and face covering requirements will remain in place in certain settings under a Class Order made by the Chief Medical Officer of Health pursuant to section 22 under Section 77.1 of the Health Protection and Promotion Act until June 11, 2022, unless extended or revoked. The ministry's plan to discontinue the COVID-19 Enforcement Support Line and the collection of related enforcement data is aligned with the expiry of relevant orders under the EMCPA and ROA.

**Action Required:**

The ministry requests that police services boards and Chiefs submit outstanding enforcement data to [solgen.reporting@ontario.ca](mailto:solgen.reporting@ontario.ca) by **May 16, 2022**, to ensure the collection of up-to-date information. This would include:

- Any historical enforcement data that has not yet been submitted to the ministry; and
- Sustained weekly submission of enforcement data up to April 27, 2022.

Services are asked to remind their personnel of any requirements for records retention related to their EMCPA and/or ROA compliance and enforcement activities.

**Submission of COVID-19 related enforcement data beyond the dates indicated above will no longer be required.**

For questions related to enforcement reporting, please contact **Jeanette Gorzkowski, Senior Manager, Analytics Unit** at [solgen.reporting@ontario.ca](mailto:solgen.reporting@ontario.ca)

Thank you for your commitment and support over the pandemic to ensure the safety of our communities.

### Enforcement Activities Reported to the Ministry

Over the course of the pandemic from March 2020 to April 23, 2022:

- There were nearly 340,000 enforcement activities reported to the Ministry of the Solicitor General by police agencies, municipalities, public health units and regulatory ministries.
- Of the total activities reported, nearly 290,000 pertained to individuals or businesses that were educated about public health requirements by provincial offences officers.
- Over 35,000 warnings were issued, over 12,000 charges under Part I of the *Provincial Offences Act* (POA), and about 1,300 charges under Part III of the POA were laid, and over 1,000 orders under O. Reg. 8/21 were issued (including orders to disperse, orders to provide information, and orders for temporary closures).

**SUBJECT:** Replacement Informations

---

It has come to our attention that police services are seeking clarity on requesting a Warrant or Summons for new charges on replacement Informations. The purpose of this memorandum is to address this issue. In short, a Warrant or Summons is not required as the original form of release will apply to those charges.

## Replacement Information

A replacement information is a new Information related to the same offence(s) or included offence(s) as contained in the original Information and is sworn with the intent to replace the original Information. When a replacement Information is sworn, section 523 (1)<sup>1</sup> of the *Criminal Code* makes it clear that the original form of release applies to all charges contained in the new Information “charging the same offence or an included offence”. Further, section 523(1.1)<sup>2</sup> of the *Criminal Code* indicates that the regular confirmation process contained in sections 507 and 508 of the *Criminal Code* does not apply with respect to the form of release/process. Therefore, in the case of a replacement Information, no new process should be requested or issued when a replacement Information is sworn, even when requested. Prior to swearing a replacement information, the swearing officer should satisfy themselves that grounds exist to lay the charge(s). In

---

<sup>1</sup>Appendix A: Complete wording of section 523(1)

<sup>2</sup>Appendix A: Complete wording of section 523(1.1)

doing so, the officer can consider, as one factor, that the request to swear the charges contained in the replacement information came from the reviewing Crown.

**(i) “the same offence or an included offence”**

Other than obviously including the charges as originally laid, or the same charges with more particularized language, or obviously included offences (such as assault where a charge of assault causing bodily harm was originally laid), there has been little judicial interpretation of these sections regarding what constitutes the “same offence or an included offence” in this context. When swearing an Information containing the original charges and charging the same offence or an included offence, an officer should categorize it as a “replacement information” when using eIntake and not request that process issue with respect to any of the counts contained in this replacement information.

The above information is true regardless of whether the officer is using eIntake or traditional means of filing an Information.

**(ii) What if the newly added charge is a *related* offence, but not the “same offence or an included offence”?**

Section 523(1.1) does not permit the Crown to simply add additional charges onto an Information at will. Where a subsequent Information is sworn that charges offences that are not properly characterized as the “same offence or an included offence”, it is not, strictly speaking, a “replacement Information” and sections 523(1) and 523(1.1) may not apply.

This scenario often arises where *related* charges are laid in combination with the same or included offences as those found in the original Information either upon further reflection or at the request of the crown (for example, an impaired driving charge is added to a charge of refuse breath sample).

When swearing a new Information containing the same charge(s), an included offence(s) and/or a related offence(s), an officer should categorize it as a “replacement information” and not request that process issue with respect to any of the counts contained in this Information.

**(iii) What if the newly added charge is not a related offence, nor the “same offence or an included offence”?**

However, if the charge(s) arise out of a different or entirely unrelated transaction, the subsequently laid information is not properly characterized as a replacement Information. Therefore, the regular confirmation process applies, and process must issue in relation to these charges at the time the Information is sworn. Such an Information should not include the same charges or included offences as the original Information.

If an officer is unsure whether an Information is a new Information or a replacement Information, they should contact their local Crown Attorney's Office and seek case-specific advice.

Sincerely,

A handwritten signature in black ink, appearing to be 'Susan Kyle', written in a cursive style.

## APPENDIX A

### Period for which appearance notice, etc., continues in force

**523 (1)** If an accused, in respect of an offence with which they are charged, has not been taken into custody or has been released from custody under any provision of this Part, the appearance notice, summons, undertaking or release order issued to, given or entered into by the accused continues in force, subject to its terms, and applies in respect of any new information charging the same offence or an included offence that was received after the appearance notice, summons, undertaking or release order was issued, given or entered into,

(a) where the accused was released from custody pursuant to an order of a judge made under subsection 522(3), until his trial is completed; or

(b) in any other case,

(i) until his trial is completed, and

(ii) where the accused is, at his trial, determined to be guilty of the offence, until a sentence within the meaning of section 673 is imposed on the accused unless, at the time the accused is determined to be guilty, the court, judge or justice orders that the accused be taken into custody pending such sentence.

### When new information is received

**(1.1)** If an accused is charged with an offence and a new information, charging the same offence or an included offence, is received while the accused is subject to an order for detention, release order, appearance notice, summons or undertaking, section 507 or 508, as the case may be, does not apply in respect of the new information and the order for detention, release order, appearance notice, summons or undertaking applies in respect of the new information.

**FROM:** A.J. (Andrew) Ferguson

**SUBJECT:** **Regulations Amending Certain Regulations Made  
Under the Firearms Act: SOR/2022-91**

I am writing to request an All Chiefs Memo be disseminated to Ontario Chiefs of Police in relation to the Regulations that came into effect on May 18, 2022. The *Regulations Amending Certain Regulations Made Under the Firearms Act*, amend three existing regulations and repeal one regulation.

There are two specific amendments that will have an impact on law enforcement: licence verification and business record-keeping.

**Licence Verification**

Prior to May 18, 2022, the verification of a transferee's (i.e. buyer's) firearms licence by businesses and individuals was only voluntarily. As 90% of firearm sales involve non-restricted firearms, this posed a public safety risk that non-restricted firearms were being transferred to individuals who could not lawfully possess them.

The transferor (seller) of a non-restricted firearm is now required to obtain a reference number from the Registrar of Firearms, confirming the validity of the transferee's (buyer's) firearms licence prior to the transfer of the non-restricted firearm. The Registrar will issue a reference number, valid for a period of 90 days, to the transferor (seller) if the firearms licence of the transferee (buyer) is valid. The reference number can be obtained by phone at 1-800-731-4000 option 6, or online at [Firearms | Royal Canadian Mounted Police \(rcmp-grc.gc.ca\)](https://firearms.rcmp-grc.gc.ca), through Individual and Business Web Services.

Law enforcement will now be required to ensure the above noted process is followed prior to the release of any non-restricted firearms held in police custody that are returned to someone other than the previous/current lawful owner.

**Business Record-keeping**

Firearms businesses are now required to keep records describing each non-restricted firearm in their possession for a period of 20 years. This includes the transfer reference numbers and all activities related

to possession of each non-restricted firearm, the date on which these activities are performed, and their disposal.

The key difference between the current record-keeping requirement and the former Long-Gun Registry is that the records were held by the Registrar of Firearms, not the individual business. Previously no judicial authorization was required for law enforcement access. Under the present regime, law enforcement will now be required to obtain the appropriate judicial authorization, such as a warrant or production order, to acquire records from the individual businesses.

These regulations seek to address public safety concerns with respect to the acquisition of non-restricted firearms, facilitate compliance with the law, and protect individuals from criminal liability in certain circumstances.

**SUBJECT:** **Amendments Related to Vehicle Emissions and Vehicle Inspection Stations**

---

In March, my predecessor, Shelley Unterlander, sent you a memorandum to advise the policing community across the province of amendments modernizing Ontario's motor vehicle safety and emissions inspections programs, including changes to the on-road enforcement of emissions. The new program is called DriveON.

As of April 1, 2022, the responsibility for motor vehicle emissions was transferred from the *Environmental Protection Act* (EPA) to the *Highway Traffic Act* (HTA). At that time, MTO assumed responsibility for directing the program and roadside enforcement previously done by the Ministry of the Environment, Conservation and Parks (MECP). Attached in the appendix is a complete list of the regulatory amendments.

It has come to our attention that not all of the new changes have been updated in the "Consolidated Laws" section of e-Laws, where members of the policing agencies and general public would seek to find the most up to date HTA.

I can confirm that HTA s.75.1 Emissions, despite being "greyed out" in the consolidated version, did come into force on April 1, 2022. The new legislation, and associated regulations, are related to emissions and include provisions related to tampering. Included are new authorities to allow police to seize plates and put a vehicle into unfit status if the inspected vehicle does not meet the emissions standards as outlined in regulation.

Until the consolidated version of the HTA is available, the approved regulatory amendments can be found in the 'Source Law' portion of e-Laws. The link to the 'Source Law' can be found on the left-hand side of the e-Laws home page (<https://www.ontario.ca/laws>). This link will navigate the reader to a list of the approved regulatory amendments, listed by the date they were filed. The regulations pertaining to these changes were filed on March 10, 2022.

P. Bhatthal

I would ask that you please bring this memorandum to the attention of your policing stakeholders. If you have any questions, please contact Michael Rounding at (519) 562-7583.

Thank you for your assistance in communicating this change.

Sincerely,

Parm Bhatthal

**LIST OF REGULATORY AMENDMENTS RELATED TO VEHICLE EMISSIONS AND  
VEHICLE INSPECTION STATIONS**

**Environmental Protection Act- Regulation 457/19 Vehicle Emissions (revoked).** This regulation governs vehicles emissions and emissions testing and was largely revoked as of April 1, 2022 as the regulatory framework for the program is moved to the Highway Traffic Act, Regulation 169/22.

**Highway Traffic Act, s.75.1 Emissions (New)** – The new legislation and regulations with respect to emissions include provisions related to tampering. New authorities allow police to seize plates and put a vehicle into unfit status if the vehicle on inspection does not meet the emissions standards as outlined in regulation.

**Highway Traffic Act, O. Reg. 169/22 (New)- Vehicle Emissions.** This new regulation replaces the EPA Regulation 457/19 and supports the new vehicle emissions program by specifying vehicle emissions requirements and exemptions. The emissions inspection program requirements will be addressed in directives as opposed to regulations, making it more efficient to make changes as technology evolves. <https://www.ontario.ca/laws/regulation/r22169>

**Highway Traffic Act, Regulation 611 Safety Inspections.** This amendment revokes sections in the regulation that address inspections performed by motor vehicle inspection stations. <https://www.ontario.ca/laws/regulation/r22174>

**Highway Traffic Act, O. Reg. 170/22 (New)- Vehicle Inspection Centres.** This new regulation outlines the qualifications and requirements for vehicle inspection centres and technicians under the new VIC program. <https://www.ontario.ca/laws/regulation/r22170>

**Regulation 628 Vehicle Permits** Effective August 1, 2024, commercial motor vehicles will be required to provide proof of passing a Periodic Mandatory Commercial Vehicle Inspection (PMCVI) or a semi-annual as a prerequisite for registering or renewing vehicle permits for commercial vehicles. <https://www.ontario.ca/laws/regulation/r22172>

There are also a number of consequential amendments to other regulations under the HTA that support the motor vehicle inspection program. They include:

**Regulation 381/02** Testing, Repair and Compliance Requirements for Unsafe Vehicles under section 82 of the HTA. <https://www.ontario.ca/laws/regulation/r22171>

**Regulation 419/15** Definitions of Commercial Motor Vehicle and Tow Trucks

**VEHICLE INSPECTION STATIONS**

**Regulation 376/02** Classification of Vehicles as Irreparable, Salvage and Rebuilt  
<https://www.ontario.ca/laws/regulation/r22178>

To assist the enforcement of the new regulations, there have also been changes to the:

**Provincial Offences Act Regulation 950 Proceedings Commended by Certificate of Offence.** There are changes to the short form offence wordings for new vehicle emissions offences under the HTA, updating existing wordings and revoking wordings for HTA and EPA offences. <https://www.ontario.ca/laws/regulation/r22180>

There are no changes to the PMCVI or semi-annual standards, found in National Safety Code Standard 11, Maintenance and Periodic Inspection Standards (NSC 11).

The changes also include an amendment related to the registration and renewal for CMVs. Currently, commercial motor vehicle owners must ensure that their vehicles have been tested for emissions as a prerequisite to renewal of licence plates. There is currently no check at time of renewal on whether any required safety inspection has been completed.

As of August 1, 2024, CMVs must have completed any legally required safety and emissions inspections at the time of registration or renewal (i.e. PMCVI, semi-annual and emissions inspection for diesel CMVs). This is to ensure that Ontario is registering or renewing vehicles that meet a minimum safety standard as set out in NSC 11.

Dear Minister Lametti and Minister Mendicino:

**RE: SUPPORT FOR REQUESTS BY TORONTO POLICE SERVICES BOARD RELATED TO FEDERAL BAIL REFORM**

**“The need for evidence-based bail reform”**

Please accept this letter as formal endorsement by the Ontario Association of Police Services Boards, for the legislative proposals for bail reform advanced to you by the Toronto Police Services Board on May 25, 2022.

The requested legislative changes communicated to you by Toronto Police Services Board Chair Jim Hart and Executive Director Ryan Teschner are both thoughtful and measured. The comprehensive report provided to them by Chief of Police, James Ramer, outlined the significant collaborative initiatives within the city designed to prevent gun violence through proactive interventions and improved investigative outcomes. It also acknowledged the small portion of the population where proactive and early intervention strategies have proven to be unsuccessful in deterring their engagement in violent gun crimes. It is in response to this high-risk segment of the population that the Toronto Police Services Board seeks changes to federal legislation that would;

- Require that Bail Hearings for the most serious firearm offences be heard by a judge of the Ontario Court or Superior Court, clearly conveying Parliament’s view of the seriousness of these offences (and their impact on the public) as well as reflecting the views and concerns of the public about these incidents
- Add an additional route to First Degree Murder under Section 231 of the *Criminal Code*, by including death resulting from the discharge of a firearm in a congregate setting; this would act as a strong deterrent, clearly express society’s disapprobation of such conduct and help

- maintain public confidence in the justice system; and
- Increase parole ineligibility to 2/3 of an individual's custodial sentence, for any offence where the court finds that the offender discharged a firearm in a congregate setting (including those who are found to be parties to such offences).

We recognize that the complexities of the issues impacting community safety and wellbeing require a collaborative multi-sector commitment to be successful. This is no exception. Emergency services, community services, health services, local councils, provincial governments and the federal government need to recognize the crucial role each plays in the collective effort to make each of our communities safe.

Toronto Police Services Board is asking for this reform, because the tools currently available to the police and their partner agencies have been in-effective at preventing tragic events within the city. We applaud the Toronto Police Services Board and the Toronto Police Service for their leadership on this issue. This issue is not isolated to the City of Toronto, it impacts all communities.

As the leading voice for police governance in Ontario, we encourage you to prioritize the Toronto Police Services Boards proposed legislated changes related to Federal Bail Reform.

Yours truly,

Patrick Weaver
